*Children of Mentally Ill Consumers*

**Mission Statement**

Our most important goal is to ensure that all children of parents with a mental illness receive information and education about mental health and that they are supported and do not feel alone and isolated. We will work within the guidelines and recommendations of the United Nations Convention on the Rights of the Child

**Aims and Objectives**

We wish to inform and educate the community to have a better understanding of what it is like to live with a Mental Illness to raise awareness of recovery from mental illness and the things that help or hinder the process of
